Promoting Breastfeeding— One Step at a Time!

Ten Steps to Successful Breastfeeding Online Course

Karin Cadwell, PhD, RN, FAAN, IBCLC, RLC

Cynthia Turner-Maffei, MA, IBCLC, RLC

ISBN-13: 978-0-7637-5176-0 | **\$156.95*** (Individual Price)

Online Course | © 2007

Created specifically to support the implementation of the UNICEF and World Health Organization (WHO) Baby-Friendly Hospital Initiative in the United States, *Ten Steps to Successful Breastfeeding* is an essential course for educating your staff to promote successful breastfeeding. Structured in 16 modules, this online course provides 23.4 hours of continuing education (10 CMEs for Physicians), which can be completed at your own pace 24 hours a day. Interspersed throughout are interactive quizzes that measure your understanding of the subject matter as you move through the course.

After completing the course, you can print out a completion transcript that certifies your earned CEUs.

For institutions, Jones & Bartlett Learning provides all the necessary technology to administer the course to your staff, including:

- Hosting the course
- Student management resources
- Record keeping
- Technical support

Administrators can log on and check the progress of enrolled students at any time.

Course contents include breastfeeding as a public health policy, the advantages of breastfeeding, prenatal issues, facilitating breastfeeding, low milk supply, and providing ongoing support.

Visit tensteps.jbpub.com for more information and to preview the course!

Special pricing available for institutions on bulk orders! If you are considering this course for staff training, you can view the course in its entirety with a complimentary password.

Breastfeeding and Human Lactation, Fourth Edition

Jan Riordan, EdD, RN, IBCLC, FAAN,
Wichita State University College of Nursing
Karen Wambach, PhD, RN,
University of Kansas School of Nursing
ISBN-13: 978-0-7637-5432-7 | **\$124.95***
Hardcover | 936 Pages | © 2010

This classic best-seller continues as the only reference to bring together in a single volume the latest clinical techniques and research findings that direct evidence-based clinical practice for lactation consultants and specialists. *Breastfeeding and Human Lactation, Fourth Edition* contains a clear clinical focus with more than 2,000 research studies supporting the clinical recommendations found in the text.

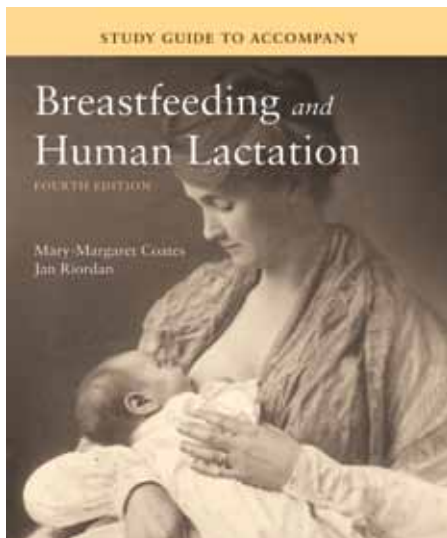

Completely updated and revised, the *Fourth Edition* now reflects the expanded role of the lactation specialist worldwide. New content includes obstetrical issues such as the significance of skin-to-skin care. To make studying and learning easier, each chapter includes summaries of the important concepts discussed in the chapter. Key features throughout include key concepts, Internet resources, and boxes highlighting evidence-based practice.

What's more, the accompanying CD-ROM and color insert accurately depict positioning, the normal breast, and breastfeeding problems.

Study Guide for Breastfeeding and Human Lactation, Fourth Edition

Mary-Margaret Coates, MS, IBCLC
Jan Riordan, EdD, RN, IBCLC, FAAN,
Wichita State University College of Nursing
ISBN-13: 978-0-7637-5882-0 | **\$53.95***
Kit | 208 Pages | © 2011

The *Study Guide to Accompany Breastfeeding and Human Lactation, Fourth Edition* helps you assess your current knowledge of human lactation and prepare for the International Board of Lactation Consultant Examiners (IBLCE) certification examination. Designed as a companion to the classic text, *Breastfeeding and Human Lactation, Fourth Edition*, each question and answer corresponds to information in the text, including vital insights into clinical practice.

EACH CHAPTER CONTAINS

- A list showing how information in that chapter applies to discipline areas tested on the IBLCE certification examination
- Multiple-choice questions that test your factual understanding of lactation and breastfeeding with back of book answers provided
- Discussion questions designed to spark critical thinking and prompt review of the topic addressed

Included with the book is an online access code for JB TestPrep, our Online Interactive Testing Program. This online program includes all of book's questions and answers, practice exams providing feedback, and final exams to help prepare you for the IBLCE exam.

Comprehensive Lactation Consultant Exam Review, Third Edition

Linda J. Smith, BSE, FACCE, IBCLC,

Director, Bright Future Lactation Resource Centre

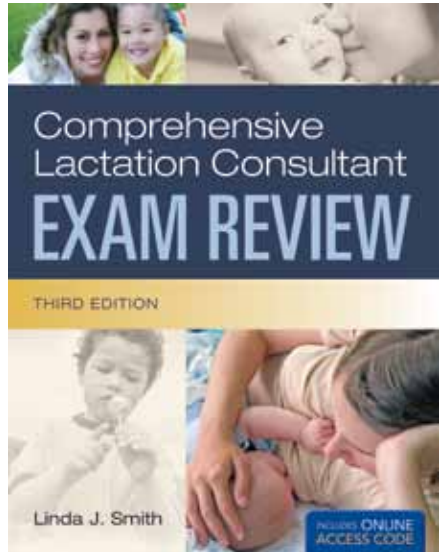

ISBN-13: 978-1-4496-0346-5 | **\$69.95***

Kit | 310 Pages | © 2011

Consistent with the direction of the International Board of Lactation Consultant Examiners (IBLCE) exam board, the *Third Edition* of Linda Smith's highly successful *Comprehensive Lactation Consultant Exam Review* is now organized around the chronological stages of the mother–baby dyad's development. With more than 800 questions and over 30 new clinical pictures, this new edition encourages an in-depth exploration of each stage of the mother–baby dyad's development, while posing questions unique to that particular stage. **It contains two complete Practice Exams and presents thirteen actual Clinical Case Studies**, each asking several questions about the case. This review guide is perfect for beginning lactation consultants and those recertifying, as well as dietitians, childbirth educators, nurses, and breastfeeding counselors.

NEW KEY FEATURES

- Information organized by chronological stages
- More than 100 additional questions and over 30 new clinical pictures
- Practice Exams that follow the IBLCE exam format with 175 multiple-choice questions, 100 questions of which have clinical pictures

Included with the book is an online access code for JB TestPrep, our Online Interactive Testing Program. This online program includes all of book's questions and answers, practice exams providing feedback, and final exams to help prepare you for the IBLCE exam.

ISBN-13: 978-0-7637-9404-0 | **\$69.95*** | © 2011

Counseling the Nursing Mother: A Lactation Consultant's Guide, Fifth Edition

Judith Lauwers, BA, IBCLC

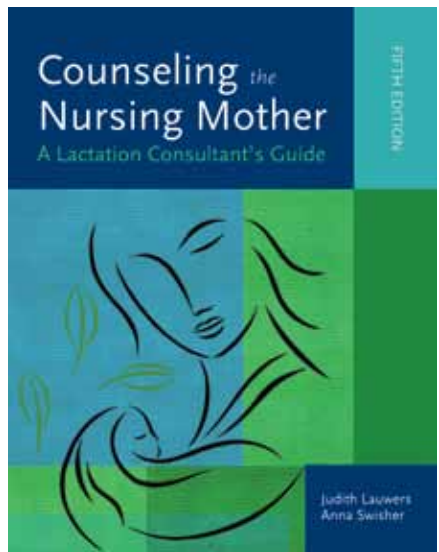

Anna Swisher, MBA, IBCLC

ISBN-13: 978-0-7637-8052-4 | **\$87.95***

Hardcover | 799 Pages | © 2011

Counseling the Nursing Mother: A Lactation Consultant's Guide, Fifth Edition comprehensively examines how counseling styles and approaches enhance interactions with mothers and stresses the importance of appropriate, effective communication techniques. The text presents topics within a counseling framework and includes practical suggestions for working with mothers. Further, it provides insights into applying knowledge and evidence-based research into everyday practice and how to meet counseling challenges.

Thoroughly updated and revised, the *Fifth Edition* covers a wide-variety of topics in the lactation consultation field, beginning with breastfeeding promotion in the modern world, and examining the professional role of the lactation consultant, as well as basic anatomy, physiology, nutritional needs, high-risk babies, and breastfeeding techniques. Additionally, the text also serves as significant tool for teaching interns

and other health care professionals. It is ideal as the first text in the journey towards becoming an International Board Certified Lactation Consultant (IBCLC), enabling learners to understand lactation in easy-to-read terminology before advancing to more scientific texts.

Breastfeeding Management for the Clinician: Using the Evidence, Second Edition

Marsha Walker, RN, IBCLC,

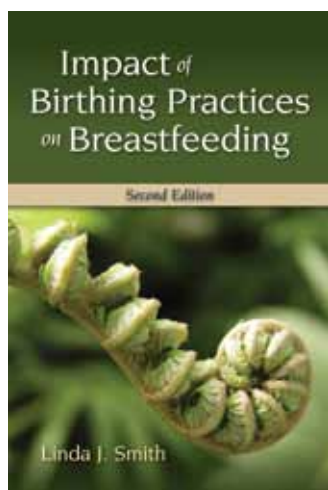

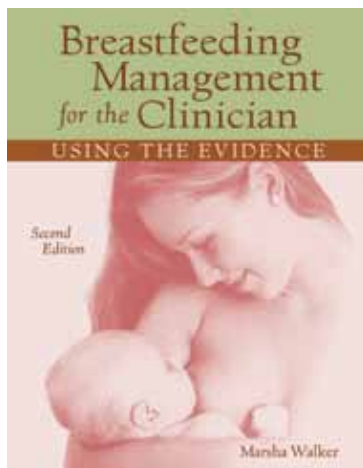

National Alliance for Breastfeeding Advocacy

ISBN-13: 978-0-7637-6651-1 | **\$63.95***

Paperback | 708 Pages | © 2011

Breastfeeding Management for the Clinician: Using the Evidence, Second Edition is an evidence-based guide that provides current and relevant information on breastfeeding and lactation blended with clinical suggestions for best outcomes. This essential reference provides a research-based approach to breastfeeding care by including literature reviews while covering the incidence, etiology, risk factors, prevention, prognosis and implications, interventions, expected outcomes, care plans, and clinical algorithms.

Completely updated and revised, the *Second Edition* includes hundreds of new references and expanded resources at the end of each chapter. What's more, it provides new information on the anatomy of the nipple, original concepts on breastfeeding management such as biologic nurturing and ventral positioning, the latest research on sucking mechanics of infants, and a section on the late preterm baby.

Impact of Birthing Practices on Breastfeeding, Second Edition

Linda J. Smith, BSE, FACCE, IBCLC,

Director, Bright Future Lactation Resource Centre

ISBN-13: 978-0-7637-6374-9 | **\$53.95***

Paperback | 248 Pages | © 2010

Impact of Birthing Practices on Breastfeeding, Second Edition examines the research and evidence connecting birth practices to breastfeeding outcomes. It takes an in-depth look at the postbirth experiences of the mother and baby, using the baby's ability to breastfeed as the vehicle, the mother's lactation capacity as a factor, and the intact mother–baby dyad as the model to address birth practices that affect breastfeeding.

The *Second Edition* has been completely revised to include new information on infant outcomes, including epidural anesthesia and cesarean surgery, clinical strategies for helping the mother and baby recover from birth injuries, medications and complications, and information on the World Health Organization's Baby-Friendly Hospital Initiative with its Mother-Friendly Childbirth Module.

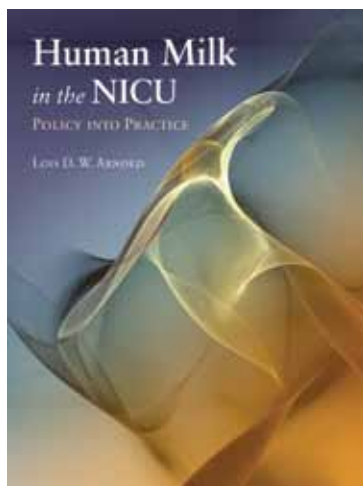

Human Milk in the NICU: Policy into Practice

Lois D.W. Arnold, PhD, MPH, CLC

ISBN-13: 978-0-7637-6133-2 | **\$60.95***

Paperback | 490 Pages | © 2010

This unique text examines the use of banked or stored human milk in the hospital for premature and sick infants. In addition, it discusses the advantages of human milk feedings and the elements of hazard or risk introduced by the use of formulas, including rationales for the use of both mother's own milk and donor human milk in the NICU. This reference also highlights domestic health policies that impact the use of human milk for sick and fragile infants, international models and policies for milk banking, the history of donor milk banking and how it came into being, and ethical issues surrounding the delivery of milk banking services and donor human milk in the NICU.

Continuity of Care in Breastfeeding: Best Practices in the Maternity Setting

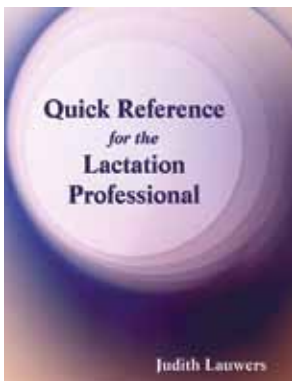

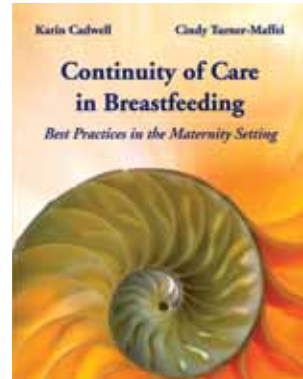

Karin Cadwell, PhD, RN, FAAN, IBCLC, RLC

Cynthia Turner-Maffei, MA, IBCLC, RLC

ISBN-13: 978-0-7637-5184-5 | **\$50.95***

Paperback | 168 Pages | © 2009

Continuity of Care in Breastfeeding: Best Practices in the Maternity Setting emphasizes quality and continuity of care, management issues, and policies and procedures that support breastfeeding in the hospital setting whether in the inpatient maternity, NICU, or ambulatory care. This book offers strategies to improve patient-centered care, showcases research that supports change, focuses on the consistency of maternal child health, and is an ideal resource for practicing professionals, clinical specialists, and lactation consultants.

Quick Reference for the Lactation Professional

Judith Lauwers, BA, IBCLC

ISBN-13: 978-0-7637-5014-5 | **\$47.95***

Spiral | 276 Pages | © 2009

Quick Reference for the Lactation Professional provides the lactation clinician rapid access to critical information when working with breastfeeding mothers. Each chapter includes learning objectives, clinical guidelines, which questions to ask the mother, and key recommendations and advice for the clinician.

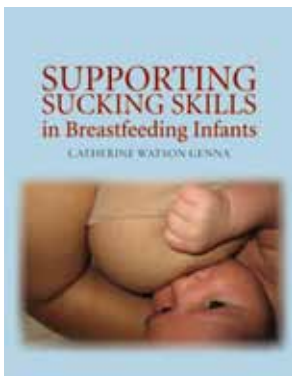

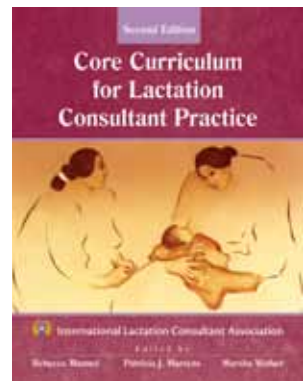

Core Curriculum for Lactation Consultant Practice, Second Edition

International Lactation Consultant Association (ILCA)

ISBN-13: 978-0-7637-4503-5 | **\$74.95***

Paperback | 774 Pages | © 2008

Core Curriculum for Lactation Consultant Practice, Second Edition allows aspiring and established lactation consultants to assess their knowledge, experience, and expertise in developing an effective study plan for certification. This updated resource takes you through the areas that appear in the lactation consultant certification exam administered by the International Board of Lactation Consultant Examiners (IBLCE).

Supporting Sucking Skills in Breastfeeding Infants

Catherine Watson Genna, BS, IBCLC

ISBN-13: 978-0-7637-4037-5 | **\$58.95***

Paperback | 355 Pages | © 2008

Supporting Sucking Skills in Breastfeeding Infants provides vital information and strategies needed to assist normal infant feeding. Taking a deliberately multidisciplinary approach, the author draws on varied clinical experiences and empirical evidence to provide a complete, usable framework for breastfeeding evaluation and support.

Maternal Newborn Nursing Care Plans, Second Edition

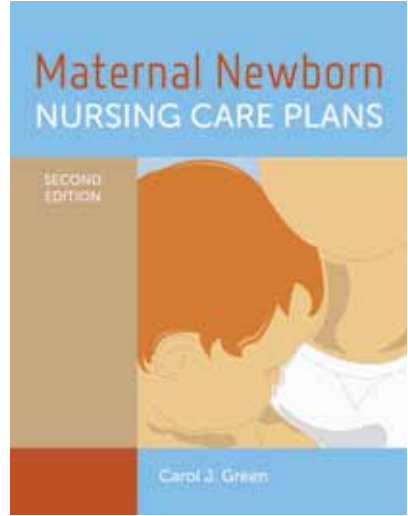

Carol J. Green, PhD, MN, RN, CNE,

Graceland University School of Nursing

ISBN-13: 978-0-7637-7742-5 | **\$76.95***

Paperback | 750 Pages | © 2012

Maternal Newborn Nursing Care Plans, Second Edition teaches students how to assess, plan, deliver, and evaluate care for normal and abnormal pregnancy, including delivery and recovery for both the mother and baby. **This new edition contains more than 65 of the most common and high-risk care plans** for maternal and newborn nursing care using the nursing process approach. What's more, it includes links to the Nursing Interventions Classification (NIC) and discussions on collaborative problems, key nursing activities, signs and symptoms, and diagnostic studies.

Pharmacology for Women's Health

Tekoa L. King, CNM, MPH, FACNM,

University of California at San Francisco,

Journal of Midwifery & Women's Health

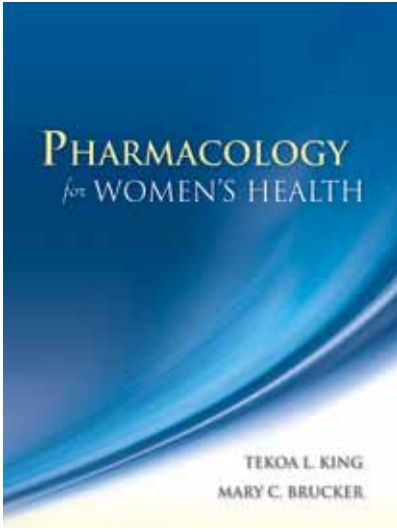

Mary C. Brucker, CNM, PhD, FACNM,

Baylor University

ISBN-13: 978-0-7637-5329-0 | **\$87.95***

Paperback | 1248 Pages | © 2011

Pharmacology for Women's Health discusses basic pharmacodynamics and pharmacokinetic principles to help healthcare professionals understand how and when to prescribe effectively. In addition, it examines the pharmacology of specific drug categories used for a wide variety of diseases and conditions as well as pharmacotherapeutic agents for specific conditions and diseases. Further, each chapter addresses drug therapy for the nonpregnant adult woman, the pregnant woman, the lactating woman, and the postmenopausal woman.

Women's Gynecologic Health

Kerri Durnell Schuiling, PhD, CNM, WHCNP, FACNM,

Northern Michigan University

Frances E. Likis, DrPH, FNP, CNM,

Journal of Midwifery & Women's Health; Vanderbilt University

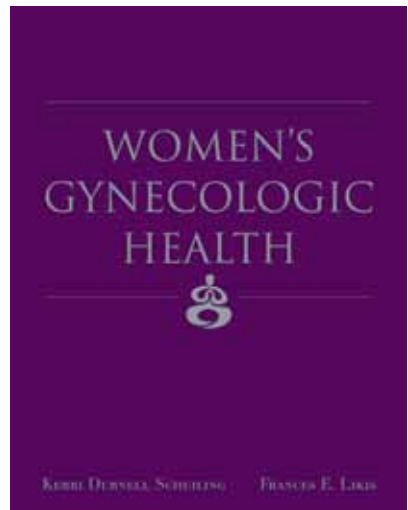

ISBN-13: 978-0-7637-4717-6 | **\$89.95***

Hardcover | 710 Pages | © 2006

“... an excellent learning tool for beginners, as well as an appropriate resource for experienced practitioners.”

- Journal of Midwifery and Women's Health

Women's Gynecologic Health is a comprehensive, evidence-based resource to help promote, maintain, and treat women's gynecologic health care. Suitable for both students and practicing clinicians, this text considers women's specific physical and psychosocial life stages and emphasizes physiologic mechanisms in order to enhance understanding of normal and abnormal processes.

– THE PERFECT STUDY GUIDES FOR THE AMCB OR NCC EXAMS! –

Midwifery & Women's Health Nurse Practitioner Certification Review Guide, Second Edition

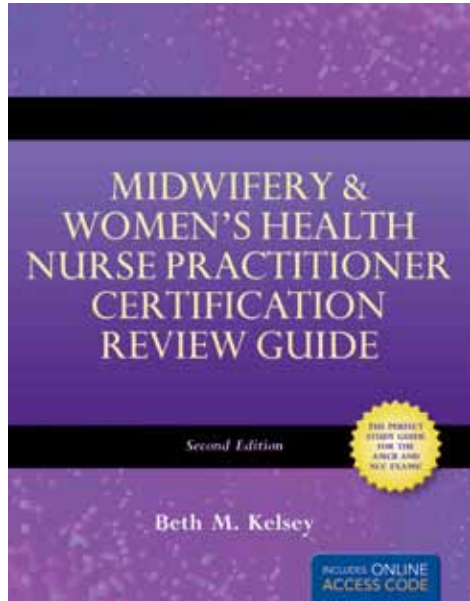

Beth M. Kelsey, EdD, WHNP,

Ball State University; National Association of Nurse Practitioners in Women's Health

ISBN-13: 978-1-4496-1500-0 | **\$75.95***

Paperback | 392 Pages | © 2011

Midwifery & Women's Health Nurse Practitioner Certification Review Guide, Second Edition is a comprehensive review designed specifically for those preparing to take the American Midwifery Certification Board (AMCB) or the National Certification Corporation (NCC) women's health nurse practitioner certification exams. Completely revised and updated, the *Second Edition* has new questions in each chapter and contains more than 600 sample test questions representative of questions found on the examinations. Since midwives and women's health nurse practitioners share many commonalities that enhance the delivery of care for women during their lifespan, this review guide provides essential test taking strategies, study tips, and test questions needed to succeed in the examination process.

Included with the book is an online access code for JB TestPrep, our Online Interactive Testing Program. This online program includes all of book's questions and answers, practice exams providing feedback, and final exams to help prepare you for the AMCB or NCC Exams.
